

# My thoughts

Use drawings and words to show what you think about these questions.

1. How does light help us to see?

Use arrows to show your answer

2. How does light travel and how far does it travel?

3. What is a shadow?

4. What happens when light from a torch hits

- black card?
- a mirror?

5. Draw what you see when a glass of water has a spoon in it.
